SOLO CASHMERE

Incomparable Cashmere

Luxurious knits in the finest of fibers for the upcoming Winter season

The fiber from the undercoat of the Kashmir goat is widely considered to be the ultimate luxury fiber. This fiber has great insulating properties, but is lighter than wool. Most Kashmir goats live in the rugged, mountainous regions of Pakistan and Tibet. Each animal produces only about 200 grams of fiber every year, which makes cashmere something very special. SOLO CASHMERE by LANA GROSSA is a 100% cashmere yarn and is spun in Italy's premier cashmere mills.

The result: a truly exceptional yarn that lets you create timeless pieces that are soft and warm and a delight to wear. Your finished garment deserves the best of care. Hand washing in tepid water is recommended. Do not agitate the water and do not wring or twist the knitted piece. Rinse until the water is clear. Do not use fabric softener. Roll the piece in a towel to absorb water and lay flat to dry.
